

Engineering Technician

**Cor4 Oil Corp.
Calgary, Alberta**

Cor4 Oil Corp. is a private oil and natural gas producer with ~4,500 boe/d of oil-weighted producing assets located in Southern Alberta. The Company has strong financial backing from a major Private Equity investor and is led by an experienced management team with a track record of creating shareholder value.

Cor4 currently has an exciting opportunity for an **Engineering Technician**, based in Cor4's Calgary head office.

Reporting to the Vice President, Engineering and Development, this role will provide technical and administrative support for the engineering and operations groups in Calgary, and will include liaison with field operations staff based in Brooks. **Duties will include, but are not limited to:**

Primary:

- PVR database administration, including data input, monitoring, quality control, and troubleshooting - in conjunction with Field Operators, Production Engineers, and Production Accountants.
- Weekly production report preparation and distribution.
- Operations activity tracking and reporting.
- DDS submissions and other regulatory filings.
- Compiling well information and other analysis in support of engineering and operations staff.
- Maintaining master lists of company wells, facilities and pipelines.
- Internal filing and records management related to all aspects of production and operations.

Secondary:

- Fluid analysis monitoring and database administration.
- Distribution of daily reports to partners.
- AFE administration and analysis.
- Production analysis.
- Accounting liaison, including EPAP.

The successful candidate will possess the following key attributes and skills:

- Minimum of three years of directly related experience.
- Demonstrated team player.
- Effective communication skills.
- Strong work ethic with proven ability to multi-task in a dynamic office environment.
- Results driven with strong attention to detail and quality.
- Current knowledge and experience with AER and other applicable regulations.
- Software proficiency:
 - PVR
 - Microsoft Office (Excel, Word, etc.)
 - Wellview (or equivalent)
 - GeoScout
 - AER - DDS and OneStop

Compensation for this position will consist of a competitive base salary, benefits, short term incentives (bonus) and long-term incentives (stock options).

Interested candidates are invited to send their resumes to info@cor4oil.com

We thank all candidates for their interest, however only individuals being considered for an interview will be contacted.
